Kim Crawford, Director of Circle of Freedom gave an update. Circle of Freedom is located in Seymour, Iowa. It provides a very structured program for women working to overcome addiction. The facility has been open almost one year. It is able to accommodate 10 women in its program at any given time. Currently, there are 3 full-time students living at the facility and enrolled in the program. Later this week, two (2) additional students will be starting the program. Over the last year there has also been seven (7) other students that have started the program but for one reason or another has not continued in the program. This is not uncommon in these types of programs. Director Crawford has also reached out to over 200 different churches and entities to secure funding for this program and is now working with several counties to secure funding through the National OPIOID Settlement they are receiving. Director Crawford is also sitting on a committee with Supervisor Wilson and Pastor Lee Havemeier to look at other opportunities to invest the OPIOID Funds in our community and surrounding communities. They are looking to team up with the school system to work on prevention with students and looking for options to support the males in our community who are struggle to addiction and leading them down a path to freedom. Possible male programs include The Refuge and Teen Challenge for Men. The county has supported Circle of Freedom with \$20,000 in Opioid funds and will be looking to support them another \$10,000 in the month of October for FY25 budget.

Lange made a motion to approve the reassignment of tax-sale certificate 12-0216 to Jerry Fetters, and the abatement of all delinquent & current taxes, penalties & interest for Parcel#12140H493008 once property ownership has transferred, seconded by Moore.

Engineer Dillon Davenport gave Engineer Office/Secondary Road Update.

- County crew is completing the shouldering project this week if they have the material. Dump trucks are scarce because of the 2 coop developments in the county.
- County crew will begin full depth concrete patching next and there is a lot to do county-wide. This project will require traffic control lights and those will be borrowed from Decatur & Appanoose County. Patches will need to cure for 24 hours before traffic is allowed on it. This cure mix will last longer but there will be some overnight lane closures.

Moore made a motion to approve Final Plans for Project# BROS-CO93(97)-8J-93, seconded by Wilson. This project is to replace a bridge northeast of Seymour on 245<sup>th</sup> Street. Engineer Davenport & Assistant Engineer Carpenter are working on Right-of-Way acquisition. The bid letting should be January 22, 2025. The project should take 3-4 months and should be completed in 2025.
